

# CARROL GAMBLE

---

## SECTION A: INDIVIDUAL INFORMATION

### A.1. Personal Information

<b>Name</b>	Carrol Gamble
<b>Post or Position</b>	Professor of Medical Statistics, Head of the Department of Biostatistics, Co-Director of the Clinical Trials Research Centre
<b>Employer, Research Institution or Affiliation</b>	University of Liverpool

### A.2. Short Biography

After completing a BSc in Mathematics and Statistics at the University of Liverpool, Carrol undertook a three-year training fellowship in London, completing a PhD in publication bias in meta-analysis as well as gaining expertise in teaching medical statistics and consultancy. After her PhD she continued with interests in meta-analysis and in particular selective reporting with research positions in Oxford and then as a lecturer at the Liverpool School of Tropical Medicine where she became the statistical editor of the Cochrane Infectious Diseases Group.

Opportunities to undertake primary research in clinical trials took Carrol back to the University of Liverpool where she developed a portfolio of research relevant to paediatric clinical trials via the Medicines for Childrens Research Network, and in clinical trials methodology within the Medical Research Council funded Hubs for Trials Methodology Research Network. Carrols methodological interests focus on recruitment and retention in clinical trials and consent where there is an urgent need to treat.

Carrol chairs the UK network of statisticians in UKCRC registered Clinical Trials Units and is a member of the UKCRC registered CTU group on data sharing.

## **SECTION B: DISCLOSURES**

### **B.1. Financial Interests**

- 
- 

**Answer:**

### **B.2 Other Real or Potential Conflicts of Interest**

**Answer:**
