

Madeleine Murtagh

SECTION A: INDIVIDUAL INFORMATION

A.1. Personal Information

Name	Madeleine Murtagh, PhD
Post or Position	Professor of Sociology and Bioethics
Employer, Research Institution or Affiliation	Newcastle University, UK

A.2. Short Biography

Professor Madeleine Murtagh is Professor of Sociology and Bioethics at the Centre for Policy, Ethics and Life Sciences, Newcastle University. She leads a team of social and data scientists conducting social studies of sociotechnical and normative practices in health research data sharing and governance, particularly interventionist, collaborative ethnographic studies with and of the progress, emergent values, outcomes and social effects of health and genomic data science. Alongside this work, she develops new forms of governance for responsible and responsive data sharing in health services, biobanks and cohort studies which centrally involve citizens and research participants in ethical and governance decision-making. Madeleine established and chairs the METADAC data and samples access governance infrastructure (www.metadac.ac.uk) for nine UK longitudinal studies.
